"This stepping further into mastery is a lot of fun and providing much wonder to behold. I feel like I'm deconstructing, been demo-ed and am rebuilding from the ground up. I am watching my words and catching myself using some that I'd rather substitute with more positive, more diva-like connotations the next time. I'm realizing again, as I have off and on forever, that the tension that I hold especially in my belly, my pelvis, my womb - it's time for it to be released and let that energy flow...I know there is more to be done."

-Deb Schanilec, Amygdala Whisperer, Saint Paul, MN

"Spirit led me to Nut and her healing mission so I could remember who I IZ and fully embody this divine incarnation as a Wombn. I am still evolving and growing in love and this training not only encourages it, but draws out my juiciness even more."

-Nejah Love, Artist & Athlete, Los Angeles, CA

"My love, what an amazing vibration you bring thru! As always, you speak it like it is, and bring the creative orgasmic power of the universe right back where it belongs: in us! thank you for the song you sing."

-David Cates, www.DakaCoach.com

"Because of her, I'm the woman I am today. Not because of what she's taught me but because of what she's helped me to reveal on my own. She held the sacred space for MY magic to come forth. Asé"

-Lisa Charles, Homemaker & Business Owner, Orlando, FL

"For the longest time I have been trying, trying so hard. So hard to get things right, so hard to invoke change. After having a lot beaten out of me I was too exhausted to try, I needed to recoup my energies, and as I stopped trying things started happening. And as I shed my emotional and spiritual burdens the synchronicities started to turn up. At first I thought I was tripping, but eventually I started to see it was real."

-Sonja Wilson, London, UK

"My stomach feels empty! Like something released! I feel lighter! Thank you and I love you! Last night's session was amazing and healing! Thanks for being you! This has been a blessing for me."

-A'st Maye, Brooklyn, NY

"My experience was a step into a very good place - it was an At Last moment - easy and clear. I've noticed I'm much calmer and able to be a better mother to my daughter and parent in a way I thought was lost to me - to respond creatively. Thank you again - Breathing!"

-Fork Burk, Artist, Biel/Bienne, Switzerland
